BRAIN-FIZZING FACTS

DR EMILY GROSSMAN

ALICE BOWSHER

**Dr Emily Grossman** explains the answers to some of the world's most **random, revolting** and **outright ridiculous** questions.

From how many people need to jump at the same time to make an **earthquake** to how to **escape** the grip of a crocodile's jaws, this book is **full of science** that seems unbelievable but is **absolutely true**.

Be **prepared** for your eyebrows to **rise**, your jaw to **drop** and your **mind** to be

**BLOWN!**

HOW MUCH DOES THE INTERNET WEIGH?

WHAT DOES THE CENTRE OF THE MILKY WAY TASTE LIKE?
